\$130million for Queensland's economy.

Sand mining on North Stradbroke Island adds \$130 million to Queensland's economy each year. An independent report* shows that 520 jobs rely on Stradbroke Island sand mining in ferry and trucking services, industrial supplies, energy and community services.

The report estimates that 44% of the economic activity on Stradbroke Island is related to sand mining. Continued responsible mining by Unimin delivers a Sustainable Stradbroke.
