

Michael Choi – Will You Stand Up For The Redland's Economy?

The Premier's announcement to close down all mineral sands mining on North Stradbroke Island (NSI) by 2019 is devastating news for the Redland's economy.

Sandmining is the largest employer in the Redland's area. When our operations cease it means that more than 230 direct jobs and more than 400 support service jobs will be lost.

Sandmining injects more than \$130 million into local businesses and community every year. We are the primary source of income for many of the local businesses on the island and the mainland.

Once sandmining closes down, it will send the Redlands into an economic tailspin.

Michael Choi is the local State ALP Member for Capalaba and the only remaining representative of the Bligh Government in the Redlands.

Michael, will you make sure your constituents are heard, by voting against your government's job destroying legislation to end sandmining on NSI?

Michael, stand up for small business owners and local residents.

MICHAEL, STAND UP FOR THE REDLANDS!
